

Electrical Parts for Forklifts

Forklift Electrical Parts - Forklifts and various lift trucks can have specific labels utilized in certain hazardous locations. The mark denotes that this specific model of lift truck meets the minimum standards of ANSI/UL 553 for electric forklifts or ANSI/UL 558 intended for internal combustion engine lift trucks.

The use for labels for lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Check with your local insurance provider and Fire Marshall for additional info on the approved uses of industrial powered forklifts in your application.

If the certain lift truck meets the outlined standards, labels could be placed. A labeled forklift will show the type of designation put on the nameplate and would have a properly corresponding label attached.
