

## TCM Forklift Parts

TCM Forklift Parts - In the global trade of material handling, forklifts play an important role for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the United States of America, forklifts gained recognition following WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

Originally established as Toyo Carrier Manufacturing Company Limited, in 1949, the business was later renamed Toyo Umpanki Co. previous to becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Through the years, TCM lift trucks have become a global leader in lift truck manufacturing and have built a solid reputation with the industry. TCM began constructing lift truck manufacturing locations outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes many models of industrial trucks with over 50 years of accumulated technology and expertise, making their products recognized and used all around the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aims to become a world-class leading company.
