

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating ever since nineteen seventy four, becoming the largest independent spreader manufacturer around the world. They are a devoted maker of spreaders intended for a lot of different applications like for instance the swap bodies, trailers, and handling of containers.

Engineering is done in-house by means of making use of all of the most up-to-date CAD systems and FEM tools. The ELME business now has more than one hundred twenty five employees. Their spreaders are supplied to reach gantry, quayside, ship-to-shore cranes, stackers, straddle carriers and lift trucks all-over the globe.

The ELME product series offers spreaders used for different container and trailer handling operations. Several of their inventory include: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes and a wide array of additional parts.

Manufacturing and production of ELME products are developed in highly automated purpose designed factory. In the year 2008, they made one thousand one hundred fifty spreaders by means of utilizing quality components so as to guarantee reliability and high standards. Major characteristics of ELME comprise design simplicity, market reaction and inventive modular spreader concept.
